EDUCATIONAL

PROJECT

ASU MUSIC BUILDING ADAMS STATE UNIVERSITY, ALAMOSA CO 81102

Project Scope:

General contractor for the project consisting of retrofitting a new VRF cooling system and updating the existing heating system in the building. The new system is concealed in soffits, chases and the ceiling throughout the building. The external units are concealed with a new site wall that was built to match the existing building. Challenges in the project included very limited space for the new equipment, fire rating the system and meeting the tight work schedule.

Owner:

Adams State University
208 Edgemont Blvd.
Alamosa, CO 81102

Square Footage:

N/A

Project Cost:

\$1,380,000

Project Schedule:
